The screenshot shows the GitHub repository page for **choyichen / tcga-mir-rewire**. The repository has 5 commits, 1 branch, 0 releases, and 1 contributor. The main branch is **master**. The repository description is "Short description of this repository" and the website is "Website for this repository (optional)". The repository is currently being edited, with a "Save" button and a "Cancel" link. The commit history shows a "Little update" by choyichen 17 minutes ago, with the latest commit being `f2297a1b9f`. The repository contains a `hw3` directory and a `README.md` file. The `README.md` file content is displayed below the commit history, showing the repository name **tcga-mir-rewire**. On the right side, there is a sidebar with links to **Code**, **Issues**, **Pull requests**, **Wiki**, **Pulse**, **Graphs**, and **Settings**. At the bottom right, the **HTTPS clone URL** is shown as `https://github.com/choyichen/tcga-mir-rewire.git`, and there is a button to **Clone in Desktop**, which is highlighted with a pink arrow.

C:\Users\Cho-Yi\Documents\GitHub\tcga-mir-rewire [master]> ipython notebook_

Open up hw3 notebook and start to code

When you're done, commit the changes you made

The screenshot shows a JupyterLab interface with a sidebar on the left containing a search bar labeled "Filter repositories" and two repository entries: "pandas-cookbook" and "tcga-mir-rewire". The main area displays a file list for the "master" branch, showing two files: "hw3\ipynb_check...\hw3-checkpoint.ipynb" and "hw3\hw3.ipynb", both with checkboxes and status indicators. The bottom panel contains a commit form with a text input field labeled "Update hw3.ipynb", a "Description" field, and a "Commit to master" button. Two pink arrows point to the "Update hw3.ipynb" field and the "Commit to master" button.

Your commitment will be seen

The screenshot shows a Slack interface with a teal sidebar on the left and a main chat area. The sidebar lists the workspace 'dfci.compbio' and several members: cychen, heatherselby, johnq, jtso, kglass, mararie, and zmccaw. Under 'PRIVATE GROUPS', the group 'tcga-mir-rewire' is highlighted. The main chat area shows the group name 'tcga-mir-rewire' at the top, followed by a message from jtso and a commit notification from the github bot. The commit notification is highlighted with a red box. The right sidebar shows 'Group Info' with 'About This Group' and 'Pinned Items' links, and '1/2 Members' listed as cychen and jtso.
